Little Architect

after school club

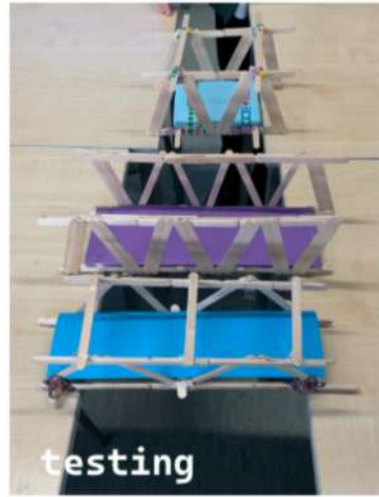

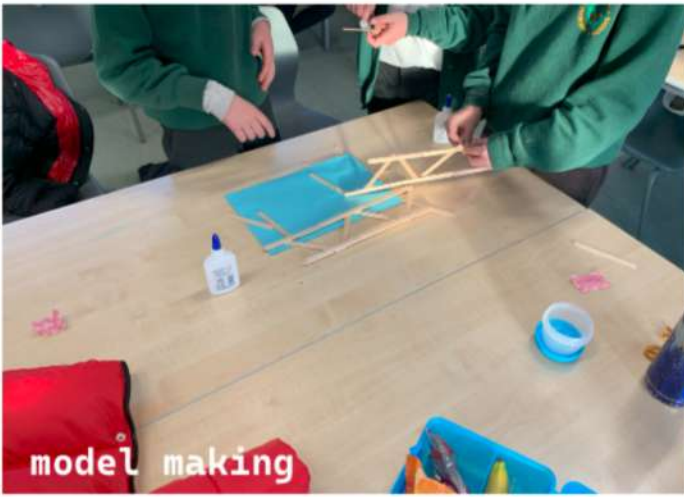

LITTLE ARCHITECT CLUB

Objectives:

- Inspire & empowers students' creativity through architectural design and model making
- Promotes problem-solving, teamwork & a growth mindset through experiential learning

Examples:

- Design a futuristic school, inspired by architect Frank Gehry
- Sketch and design a skyscraper inspired by Jenga Building
- Garden in the dark – design a garden with sustainable materials
- Design a curve building inspired by Zaha Hadid

S . T . E . M . Maker

after school club

STEM MAKER CLUB

Objectives:

- * Encourages & empowers student to use their creativity and to develop their critical thinking skills
- * Promotes teamwork, resilience & a growth mindset through experiential learning

Examples:

- * Build a wooden bridge with truss systems (forces in diagonal structure, truss members, joints, etc.)
- * Build with spaghetti & marshmallow tower (stability of different structural forms & geometry)
- * Make a Straw Rocket
